You Can Make Money Farming

The thrifty, intelligent farmer is making big money these days. Prices for everything raised on the farm are very high, and they are going higher. With the same care and intelligent attention given to marketing and other details as are given by the average business man in the city, the man who owns a good farm is sure of real success.

He is really independent. He has a home of which he is proud. He raises his boys and girls under the best possible conditions. And he is providing himself so that his declining years may be spent in comfort and peace.

Why not call us up to day, 'phone 310, and make an appointment with us to see some of our farms, a few specimens of which are given below?
